SUMMARY

Passionate software developer with experience in building intuitive UIs to boost user engagement and scale accordingly, and robust backend systems and API architecture, with or without a team. With my expertise and a strong understanding of the software development process, I am eager to contribute to the growth and success of an innovative tech company.

CORE SKILLS

- **Programming languages:** HTML/CSS, JavaScript, TypeScript, Python, SQL, NoSQL.
- **Frameworks and tools:** React, Redux, Next.js, MongoDB, PostgreSQL, MySQL, RESTful API, Git/Github.
- **Soft skills:** Excellent oral and written communication, teamwork, problem-solving, leadership, creativity, proactivity, **grit** and persistence, and adaptability.

WORK EXPERIENCE

Freelance Services || 2023 – Present
Frontend Software Engineer:
- **Developed and maintained** responsive, high-performance UIs for a diverse range of clients, ensuring **cross-browser compatibility** and a seamless experience across devices and screen sizes.
- **Collaborated** with clients and project managers to deliver custom front-end solutions that aligned with set goals.
- **Integrated third-party APIs and services** into web applications for smooth data flow and dynamic content updates.

Viablestack, Lagos, NG || 2024 – 2025
Frontend Engineer:

- Developed and maintained a fully responsive and functional web application using Next.js, resulting in a 30% increase in user engagement and a seamless user experience across devices.
- **Collaborated** effectively with the design and back-end **teams** to **optimize web applications** for speed and performance, ensuring a smooth and responsive user experience.
- **Implemented SEO best practices** to improve website visibility and search engine rankings.

RELEVANT PROJECTS

- Viablestack – Market research AI application for businesses. Coded with **React**, **Next.js**, **TypeScript**.
- A.I Recommender – AI pathfinder for aspiring tech talents. Built with **Next.js**, TypeScript, and Gemini API.
- Locoomo Logistics – Innovative logistics solution. Built with React, Redux, and TypeScript.
